

## **SIBO Negative Recommendation Guide Weeks 5-8**

**Refer to respective bottles for daily supplement serving dosages.**

### **Shortly After Waking:**

**We recommend Drinking our Early Morning Alkalizing Drink & Following Supplement:**

### **Take w/ Breakfast Shake:**

- GI Synergy
- Digestive Enzyme
- Positive for Parasites? Start SCRAM or R.U.G. now! (& Liver Rescue)

**Mid-Morning:** Previous Clients have Benefitted from Drinking 1 Quart of Spring Filtered Water and taking:

- Inter-fase Plus
- Maximum Keto Electrolytes

### **Take w/ Lunch:**

- Betaine HCl
- Digestive Enzyme
- IBguard
- Garlic Extract (**SIBO Negative ONLY - If You DO NOT Have SIBO**)

**Afternoon:** (Take w/ another Chocolate Breakfast Shake (if hungry) or just a handful of Macadamia nuts):

- Maximum Keto Electrolytes
- Probiotics

### **Dinner:**

- Betaine HCL
- Digestive Enzyme
- EcoPhage
- IBGuard

Scroll Down

**!!! No eating 3 hours before bed !!!**

**Before Bed: Mix 1/2 - 1 teaspoon of Bentonite Clay in about 4 ounces of water, mix vigorously with a fork (there will still be some clumps) and drink immediately! This pulls pathogenic bacterial die off out of your body safely and smoothly.**

**\*Chris Kresser recommends his clients take GI Synergy twice daily (with breakfast & dinner)**

**\*\*Research shows taking probiotics separate from anti-bacterials (IBGuard: peppermint oil, garlic extract and GI Synergy) may be best as the beneficial bacteria in the probiotics could be killed off by the antibacterial properties from the herbs, garlic, and peppermint essential oil in the above antibacterials etc.**
