1. ****READ FIRST!!!! Be sure to use Whole flax seeds for this recipe. (You will grind them fresh for the shake). that could make you feel sick. Also, be sure you use Organic Raw Cacao powder. This is very important as raw cacao powder is completely different than the standard cocoa powder you buy for cooking and baking in recipes. Cocoa powder does not have the same level of antioxidant value as Raw Cacao powder due to differences in processing. 2. Pour the flax seeds and psyllium husks into a blender. Blend until finely ground. Then add the rest of the ingredients (sweeten with either Organic Stevia **OR** Organic Monk Fruit powder (erythritol free)) and blend until smooth and creamy! Add more milk if shake is too thick.
3. Pour into a tall glass or mason jar and drink immediately as shake thickens quickly! Enjoy!
